Fire destroys vacant building Ball of fire visible for more than a mile

By Mike Myers

Staff writer

GRANITE CITY — A large crowd turned up at just after midnight this morning to watch Granite City firefighters battle a "really spectacular" fire that destroyed a large vacant two-story brick building at 2015 Washington Ave.

Ownership was still being determined.

At one point, according to Fire Chief Jerry Wallace, high winds whipped up a ball of flame from the building, sending it across half way across Washington Avenue. He said the department wetted down the houses across the street as a preventive measure.

"Only a miracle kept it from spreading," Wallace said. "It was a 'MAG' guys really none good work into this one."

None of the neighbors were formally evicted, Wallace said, but most left on their

own. He guessed the fire, which could be clearly seen from Edwardsville Road to Madison Avenue, drew more than a hundred spectators.

Wallace said firefighters would continue to pour water throughout the morning. "I'm not going any of my guys inside," he said. "We're not going to turn the Telesquirt off for a while and let the hot spots burn through the debris so we can get water down to them."

Wallace said the winds that made the fire so awesome also made the job of his firefighters miserable. He said the department had every piece of its equipment at the fire and, at the height, were pouring in water from all directions.

Since all of Granite's men and equipment were at the Washington Avenue fire, firefighters from Madison were called to man

the main fire station in just in case there was another fire call.

The fire apparently started on the first floor of the building, Wallace said, but quickly spread to the second floor and the roof. Wallace said that neither the gas or electric to the building were hooked up at the time of the fire.

Because the wind fed the flames from the bottom, Wallace said, one of the front corners on the first floor of the building didn't suffer any fire damage at all.

"I doubt we'll ever determine the cause of this one," Wallace said.

The building, boarded up at the time of the fire, had been the subject of numerous fire and police calls in recent years.

"I don't think there is one of my guys who hasn't been here on at least one other fire call," Wallace said.

Roderick also plans to continue operating his downtown restaurant, Jerry's Cafeteria.

Also approved was another \$100,000 loan to the Metal Refining Co. Inc. for the establishment of a manufacturing facility at the old Union Starch & Refining Co./Miles Laboratories plant. County Board Chairman Brian Hagnauer, D-Granite City, said.

The company, which will make fence posts and cargo pallets from recycled plastic products, is expected to employ 40 people, said Brian Hagnauer, D-Bethalto, a member of the county's Grants Committee.

Loans may add 105 jobs here

EDWARDSVILLE — The creation of 105 full-time, permanent jobs for Granite City is one of the reasons that Madison County Board approval on Wednesday of two low-interest loans to businesses planning to establish them selves in Granite City.

The board OK'd a five-year, \$100,000 loan to Jerry Roderick, president of Metal Refining Co. Inc. for the establishment of a manufacturing facility at the old Union Starch & Refining Co./Miles Laboratories plant. County Board Chairman Brian Hagnauer, D-Granite City, said.

The company, which will make fence posts and cargo pallets from recycled plastic products, is expected to employ 40 people, said Brian Hagnauer, D-Bethalto, a member of the county's Grants Committee.

The court hearing is set for 1 p.m. Saturday and the board hearing is scheduled for 7 p.m. the same day.

Both commissioners said they would have to hear the arguments before making a decision on either the injunction or the court complaint or the motion to the board. But Melton said, "I don't personally believe we have

Police hearing challenged

By Mike Myers

Staff writer

GRANITE CITY — A police officer facing possible dismissal will ask a Madison County judge Monday afternoon for a restraining order to keep all three members of the Fire and Police Commission from hearing his case.

In a complaint filed this week, patrolman Jerry Duncan's attorney, Melroy B. Hutmick, asks that Commissioners Leland Ambuehl, Linda Irwin and Edward Dewey Melton not be permitted to hold a disciplinary hearing scheduled for next Monday night.

Duncan has been charged with failing to report for duty on time and failing to notify his supervisor of his intention to take a sick day. The alleged incident took place in August.

According to the complaint, the commissioners' ability to give Duncan a fair and impartial hearing was compromised by memos concerning Duncan's alleged misconduct which Police

Chief Don Knight sent to the commissioners prior to Knight actually taking charges to the judge and jury in disciplinary hearings.

The complaint says that, unless the judge stops the hearing, Duncan's hearing will be guaranteed by law, he will be subjected to nothing more than a kangaroo proceeding. "He will be unfairly discharged without cause from his employment."

Should the judge decide not to grant the injunction, the commissioners' first act at the disciplinary hearing, Hutmick said, will be to act on a motion also filed by Hutmick, asking the commissioners to disqualify themselves from the case.

The motion before the commissioners refers to the same memo from Knight.

Both Melton and Ambuehl said Wednesday they had not yet been notified of the complaint or of a hearing in county court, but

had received the motion asking them to disqualify themselves.

The court hearing is set for 1 p.m. Saturday and the board hearing is scheduled for 7 p.m. the same day.

Both commissioners said they would have to hear the arguments before making a decision on either the injunction or the court complaint or the motion to the board. But Melton said, "I don't personally believe we have

Readers, officials agree: Many bad intersections

By Mike Myers

Staff writer

GRANITE CITY — Looking over the recent responses to the *Press-Record/Journal* survey to determine the area's most hazardous intersections, two things became apparent — there are a lot of hazards and a lot of readers who want something done about them.

Reponses to the survey came in from 144 readers.

The overwhelming winner, or perhaps least, was the three-way stop at 20th and State streets. That intersection was listed by almost all of the three-dozen workers in the Granite City Steel Building — located at 20th and State and easily outdistanced the rest of the field.

Only one intersection in the top 10 was outside the Granite City limits — State and Adel 35 and Arlington Drive — which rated No. 9.

How do the results match up with official views? Assistant Police Chief Ron Selph and Public Works Director Brett Hunka were asked.

Results and comments from the reader survey on the worst intersections appear on page 5A.

Without knowing the survey results, the City Council, at Hunka's suggestion, removed the three-way stop at 20th and State, making it a two-way stop.

"It had been a thorn in the side for a long time," Hunka said. "It's nice to see the city was able to do something on its own instead of waiting to react to bad publicity."

Selph said: "You know, for all the bad rap (20th and State) got, our statistics don't show that many accidents there. There are intersections with a lot more."

Selph's choice for the worst intersection in town is Nameoki and Johnson roads, which rated No. 7 in the survey. Selph

said it is mostly a gut feeling, but he said it also had the highest accident rate in a study done by the department of accidents on major thoroughways in the city.

According to Hunka, a quick review of the accident statistics by the Illinois Department of Transportation for 1989 shows accidents at 31st Street and Nameoki Road, No. 10 in the reader survey, resulted in one fatality and 16 injuries to lead the area.

According to the IDOT statistics, 12 people were injured in accidents at Madison Avenue and Nameoki Road — IDOT's No. 2, and No. 3 in the reader survey.

Hunka's personal choice for worst intersection is 3rd and Pontoon Road and Illinois 3, which didn't make the reader survey's top 10 and was about No. 5 according to the IDOT statistics. Accidents there caused one death and six injuries.

"It's a world that sometimes there's going to be a really bad one there," Hunka said. "But I don't know what the solution would be."

Both Hunka and Selph agreed there are "major problems" with the survey's No.

2 choice: Maryville Road, Stratford Lane and Elmert Avenue.

"It's really confusing, but it doesn't stand out in my mind as a high accident area," Selph said. "I believe because it's a less-traveled road, people are more careful."

Like the readers, Selph and Hunka said there are a lot of bad intersections in the area.

"There is a lot of irregular signage, put up for political reasons over the years," Hunka said.

"There's always room for improvement," Selph said, "whether it's redesigning intersections or educating drivers."

The top intersections on the poll were:

1. 20th and State streets
2. Maryville Road, Stratford Lane and Elmert Avenue.
3. Madison Avenue at Nameoki Road.
4. Wabash Avenue and Pontoon Road.
5. Illinois 3, Pontoon Road and Illinois 3 and Crossroads Plaza shopping centers.
6. Nameoki Road, St. Clair Avenue and Iowa Street.
7. Nameoki, Johnson and Fehling roads.
8. 20th Street and Madison Avenue.

Changing of the guard

BEGINNING A NEW YEAR: Retiring Tri-Cities Area Chamber of Commerce President Ron Daine, left, is presented with a plaque from new Chamber President Jack Lee at the annual Chamber of Commerce dinner Oct. 11. The plaque recognized Daine for his leadership during the 1989-90 year. The most prestigious honor of the evening went to Granite City Alderman Walter Milton who received the 1990 Community Achievement Award. A feature on Milton will appear in Sunday's Press-Record/Journal.

Techniques often avoid surgeries

Radiologist Rajeshwar K. Luther, M.D., has joined the medical staff at St. Elizabeth Medical Center.

A graduate of the University of Nairobi Medical School in Nairobi, Kenya, he is a clinical assistant professor of radiology at St. Louis University Medical School.

"There are many new radiological procedures we're not using as an alternative to surgery," Dr. Luther said in explaining the work of the Radiology Department at the local medical center.

"These procedures, such as biopsies and angioplasties, create less trauma for the patient and are much more cost-effective."

"I'm committed to using this new technology at the medical center for the benefit of the patients," Dr. Luther commented.

"I also would like to continue to update equipment as the technology changes."

Luther is a member of the Radiological Society of North America, American College of Radiology, American Roentgen Ray Society and many other professional societies.

"He brings to St. Elizabeth Medical Center skills in interventional radiology not heretofore available," said SEMC radiologist Dr. Geoffrey Miller.

"We are looking forward to a long association with Dr. Luther."

Senior aerobics scheduled

A senior aerobics class designed to accommodate adults who are unable to keep up with normal aerobics will be offered by the Granite City Park District.

The class is not for senior citizens only, but for anyone wishing to participate in low-impact exercise.

Workouts begin with chair work and end in dance steps. The music will be that of the '30s and '40s. Low-impact exercise can greatly increase strength and health, Park officials said.

Classes begin on Wednesday, Oct. 24, and will be held at the Brown Recreation Center, Franklin and Amos avenues. Barbara Brandt will be the instructor. The cost of the program is \$10 for residents and \$20 for non-residents.

Registration began Oct. 15 at the Wilson Park office and will continue until the day of the first session. For further information, 877-3059 can be called.

Opportunity Day for veterans

The fourth annual Veterans Opportunity Day at Forest Park Community College will run from 10 a.m. to 3 p.m. on Saturday, Nov. 3.

There will be health screenings, employment and training assistance, legal services, veterans' benefit counseling and small business assistance, all of which will be free.

For more information, the numbers are (314) 889-3413 or (314) 622-3368.

Exhibit of Arch items to open

Handbags, key chains, posters and T-shirts in the shape of the Gateway Arch or bearing its image are among the hundreds of items to be on exhibit from 9 a.m. to 6 p.m. Oct. 28 through Feb. 18 at the Arch.

The items were collected by the Jefferson National Expansion Memorial's curatorial staff for its 25th anniversary exhibit.

The Arch is closed Thanksgiving, Christmas and New Year's Day. The exhibit is free, but there is a park entrance fee of \$1 for visitors ages 17 to 61 or no more than \$3 per family. For information, the number is (314) 425-4465.

155 honored for attendance

Last year, 155 reported to work every day they were scheduled at St. Elizabeth Medical Center. Each associate (employee) with perfect attendance has received a savings bond worth \$100, increased from the \$50 bond given a year ago. The bond matures in 12 years.

It was the 12th year in a row SEMC has honored those who accomplished the feat. Among the 155 were three who have kept their attendance unblemished since the start of the recognition program — Troy Walker of Maintenance, Laura Carich of the Emergency Room and Bob Epping of the SEMC Pharmacy.

Those who received their 11th awards were Sandra Lee Gabriel, RN, of Obstetrics, Theresa E. Gulash of Electroencephalography, and Carol A. Johnson of the Information Desk and Joe O. Vizer of the Maintenance Department.

Jean Kelahan of Materials Management and Irene A. Makarewicz of Medical Records received their 10th awards.

Live national class given by satellite

GRANITE CITY — Jeffrey Michael Prosser, the Granite City Edward Jones & Co. independent representative, participated in hosting one of the largest-ever continuing education seminars for certified public accountants.

Broadcast simultaneously from the firm's St. Louis headquarters and Washington, D.C., to the more than 1,500 Jones offices nationwide, the seminar attracted an audience of nearly 12,000 CPAs.

"It's space-age satellite technology that allowed us to improve service to our clients, but it's helping us meet the needs of area CPAs and other local professionals," Prosser said.

Edward D. Jones & Co. has been offering this continuing education service for six years.

However, this is the first time one seminar has been conducted live for all branches at once. The seminar attracted guests in the Granite City Jones branch office to ask questions directly of the guest speakers in St. Louis and Washington.

The featured speakers were Mark A. Georgette, managing partner of Washington National Tax Services for Price Waterhouse, and Carol Caruthers, partner-in-charge of Personal Financial Services Practice for the St. Louis and Central region of Price Waterhouse.

In addition to frequent seminars, Prosser also offers a series of for-credit videotapes that are available for CPAs and attorneys to view at their convenience.

Edward D. Jones & Co. is the largest investment firm in the nation in terms of retail offices.

In addition, it is one of only a handful of firms to serve more than one million investors.

Its registered representatives sell traditionally conservative investments to individual investors exclusively. Prosser's office is located at 2133 Johnson Road.

Clothing will be given away

VENICE — The New Salem Baptist Church, 1349 Klein St., will be giving away clothing on Saturday from 9 a.m. to 1 p.m. Clothing will be available for men, women and children. Much of the clothing is new, the Rev. John Henry Williams said, and there are no restrictions on who is eligible for the clothes.

"Everyone is welcome to come," Williams said. "All you need to bring are bags to take the clothes home."

Williams said the church will also be accepting donations of clothing until 8 a.m. Saturday.

For more information, persons may call 452-3157 or 452-5124.

Also this weekend at the New Salem Church, an 18-year-old minister, the Rev. Parris Johnson, will conduct the morning worship service at 10:30 a.m. Sunday.

Epilepsy seminar on Oct. 27

A seminar for children with epilepsy and their families — titled Living With Epilepsy, A Family Affair — will be held from 9 a.m. to noon Saturday, Oct. 27, at the St. Louis Children's Hospital, 400 South Kingshighway.

The Epilepsy Foundation of the St. Louis Region and St. Louis Children's Hospital will host the seminar. An educational video and staff presentations will provide up-to-date information on epilepsy, medication and first-aid.

Registration is \$10 per family and children five years of age and older can attend. To register, persons may contact Jean Snyder, social service director, Epilepsy Foundation, 7305 Manchester, St. Louis, Mo. 63143. For more information, the Epilepsy Foundation can be called at (314) 645-6969.

March to Arch area planned

The celebration of the 25th anniversary of the Gateway Arch and its rededication ceremonies on Sunday, Oct. 28, will begin at 1:30 p.m. with a march by St. Louisans and area high school marching bands.

The march will start at the intersection of 12th and Market streets and will end at the Arch grounds. Following the March to the Arch, a picnic will be held on the Arch grounds. Shows below the Arch will feature St. Louis at 2 p.m., the East St. Louis High School Choir at 4 p.m., and the Military Airlift Command Band of Scott Air Force Base at 4:30 p.m.

Jack Buck of KMOX Radio will emcee the event.

The rededication ceremonies will take place at 5:15 p.m. and the celebration will conclude with a 15-minute fireworks display.

Ballroom dances to be taught

The Granite City Park District is offering beginner and advanced ballroom dance classes at the Harold Brown Recreation Center. The beginner class will start on Monday, Oct. 22, and the advanced class on Wednesday, Oct. 24. The cost is \$10 for residents of the Park District and \$20 for non-residents. The instructor is Barbara Brandt.

The classes are for couples or individuals, teens or adults.

Dances to be taught are the box waltz, old-fashioned waltz, polka, cha-cha, jitterbug and others if time permits.

Registration is under way at the Wilson Park office, 877-3059.

Protect our public housing

The fact that illegal drug distribution and usage have been increasing at public housing projects has not gone unnoticed by the Madison County Housing Authority and the cities where low-rent public apartments are located.

This is good news — that agents are mobilizing — because the issue is of great importance. The families have every right to live reasonably carefree, harmonious lives. Their freedom must not be dimmed by the harmful effects of drug abuse, nor the fear and violence associated with large-scale drug activity.

Public housing in many cities is not living up to the high hopes of decades ago. Too many projects around the United States are unsafe and unsavory. Fortunately, the County Housing Authority is bucking the trend and has obtained a \$248,000 Housing and Urban Development grant to pay for off-duty policemen to patrol housing centers.

High-intensity street lights have been installed on corners popular with drug dealers. The HUD grant also is being used to start other programs in conjunction with social agencies, efforts ranging from alcohol and drug abuse counseling to programs under leadership programs. A tutoring service will be offered after school hours in the housing authority's recreation centers.

The impact of police patrols began three months ago in Alton has been "tremendous," officials say. Plans call for patrols to start in Madison and Venice in a few weeks.

Chief Charles Bridick reports that Madison police have made 14 arrests for possession of cocaine in the last month and have confiscated more than 300 pieces of "crack" cocaine as well as \$5,800 from dealers. There have been three drug-related shootings in the same period.

Although the arrests and confiscations show that law enforcement officers have been alert, the volume and frequency of the occurrences also indicate that the scope of the problem is large. The added help will be arriving none too soon.

Miracles at bargain prices

As the Tri-Cities Area United Way campaign enters its second half, it is vital that contributors keep in mind the reason why generous United Way gifts are such a wise investment.

By giving in this fashion, they have assurance that each dollar will be put to good use, helping their community in many ways. Costly bureaucracy is avoided, funds are spent judiciously and the money is stretched even farther by the efforts of thousands of local volunteers.

When added together, even small United Way giving can make a big difference, home-delivered meals for the elderly, care for a child, crisis-counseling for families, abuse-prevention sessions for parents.

The cause is worthy, the results often seem miraculous and their "bargain prices" are simply too good to pass up.

NC-17 fuss not worth it; just make better movies

America's movie rating system, like most of today's movie stinks. And the addition of the NC-17 category only makes it all worse.

Touted as the replacement for the X rating that was more often than not a euphemism for NC-17, it is supposedly the answer to the mainstream moviemaker who has something to say on film, but can't find a way to do it without either an overuse of sex or violence.

I have virtually stopped going to movies in recent years. I'm 34 and supposedly one of the ones that the NC-17 rating is supposed to help.

But anyone who can't see through the facade is sadly lacking in perceptiveness. NC-17 does not mean any sort of adults only movie. Like the X-rated mainstream movies that came before (Angels Heart, Last Tango in Paris, etc.), future NC-17 rated movies will be made just as offensively as the new category, directors are being encouraged to make movies with plots that are even heavier on sex and violence.

Even the most adult-oriented subjects with a little creativity, can be approached in such a way that allows most family members to view them. That's why the movie theaters created the fadout, the cutaway and the various other directorial techniques of focusing on a subject, without really focusing on it, often on set and off-camera. The extra is the rule, not the exception.

During last week's vacation, I sat up one night to watch an old movie. Any old movie would have done, but I chose one that was "Charlie Chan at Treasure Island." It was simple, non-insulting, and enjoyable. What more could a movie be to attract an audience? I can't imagine that there are many people who would tackle any topic.

We made it all worse by patronizing them, more out of curiosity and the need to change than any real effort.

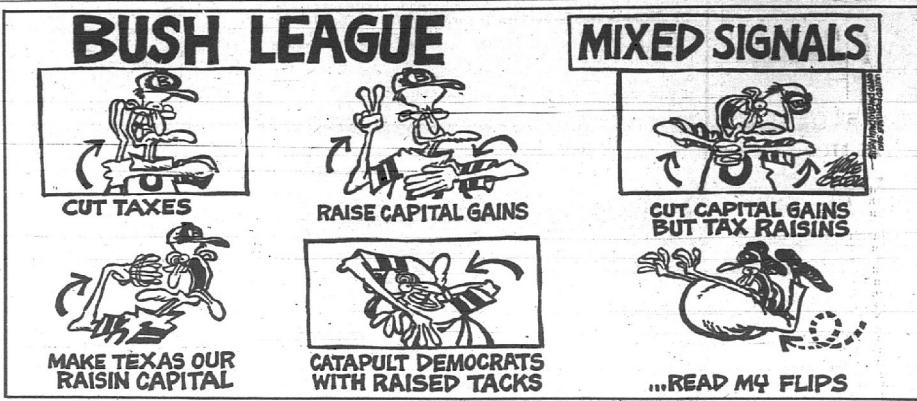

Now all the changes were bad. The topics of racism, violence, sexism and abuse of various kinds needed to be depicted. But somewhere along the way, directors went overboard. Now the extra is the rule, not the exception.

Why can't the same kind of movie be made today? I think it can. Parents I talk to cry out for relief from the movie they have to choose from.

America doesn't need to change its movie ratings. It needs to change its movies.

Letters

Says new owner of lounge blameless

Our guest

(Comments by Don Garrett of Madison, a member of the Madison County Board.)

Anti-tavern petitionation felonious?

So reads a headline in a recent edition of your newspaper.

A letter I circulated in West Madison indicated that a petition circulating in that community might be felonious.

Under First Amendment rights, you can say just about anything in a recording, a newspaper, even in a petition, and you can't be stopped.

The Supreme Court has almost always sided with First Amendment rights.

But there is another aspect of the civil law, designed to protect others from injury, to compensate them for an aspect of life with libel, slander and defamation. It is the aspect my letter dealt with.

The petition circulated did not contain the name of the present owner of the business. It contained owners who had quite a different reputation from the present owner.

Mr. Garrett merely said that, by use of the wrong name, the present owner suffers injury, she has the right to sue for that injury.

Just because the law gives the freedom to engage in an action, it does not free one from the liability or consequences. Were this not so, I could gather signatures to have a business closed and not the consequences of what I had done.

If I caused damage or injury, I could be subjected to civil suit. Clearly, my property and home would be at stake.

This is the gist of the statement I made in my letter. I believe it to be true.

The petitioners have done their thing, and the owners of

I would hope that, if I passed out such a petition using the wrong name, some friend would warn me of the possible consequences of my action.

This was the exact intent of my letter to the community, a "warning," pure and simple; no more, at least not even gave the name of the real owner and told my neighbors exactly what she had said her intentions were.

I did it before the petitioners were presented to the mayor. I did it with the best of intentions. I did not intend to create it.

Passing out a newsletter informing my neighbors as to what is going on is nothing new for me. I have done it for years. My neighbors continue in a process that I believe could cost them injury is not and never will be my style.

It is unfortunate some people have a desire to misinterpret my warning as a threat or intimidation.

Passing out a newsletter to my neighbors continue in a process that I believe could cost them injury is not and never will be my style.

It is unfortunate they were using the wrong name. I can't answer that, except to say I hope my ignorance has never been an excuse for injury in any court I know of.

If I caused damage or injury, I could be subjected to civil suit. Clearly, my property and home would be at stake.

This is the gist of the statement I made in my letter. I believe it to be true.

The petitioners have done

their thing, and the owners of

the business and building are not likely to walk away without a fight. They have invested in such an extensive investment. It is the most extensive by black people in a retail establishment in the city.

Outsiders are few beauty parlors, there are practically no other black-owned retail firms, certainly none of this size.

Cocktail lounges and other businesses which sell primarily liquor are easy to find.

Since drug stores have so widely available and used, crime and acts of violence have increased greatly. But the blame clearly being placed on retail liquor establishments, unfortunately.

Why? Well, everybody fears the drug dealer. Have you ever seen a signed petition against drug dealers with the dealers' names on it?

But pity the poor bar owner, who is usually a legitimate, tax-paying, licensed, honest, friendly citizen involved in the community and its activities. All of this makes him or her an easy target.

Perhaps the saddest side of the petitioners' intent is the attack mad in Madison has absolutely no place to gather to have a cocktail, relax, dance and socialize. That is the absolute truth.

Every other bar or dance hall in Madison is "white" hooded. This, in a town that will soon be near 50 percent black. This, despite the fact that many black adults have expanded their desire to have a lounge where they can relax, dance, socialize, meet friends, converse and have a cocktail.

That's the way the great people of West Madison have always done it, and I'm sure nothing will change that.

Meanwhile, I'll continue to call out like I "call" in the chips fall where they may. Thanks to your great newspaper for its space and all your fine, intelligent readers for their time.

Closing down a person's place

of business is a very drastic measure. I don't believe that such an action would really, deep down inside, want that, no less the many who

refused to sign.

Regulation, yes. But that is a job for police. I believe Charlie Bridick and his fine and efficient police force can stop all crime, but Chief Bridick and his dedicated officers do an outstanding job.

Of course, all of this discussion may be as lawyers say, "speculation." The petitioners have only asked for signatures to close a business which no longer exists.

Their present to the mayor, I believe, is to accept petition to close a business which no longer exists.

The mayor has agreed to call a hearing to close a business which no longer exists. At this point, it has to be assumed the present owner is not involved. But who knows what strange quirks the law may take? I don't.

Speaking of the present owner, given all that has happened, it is possible that she won't even pursue opening her lounge.

At any rate, when this affair is over, I sure that my neighborhood, and I, will be together, laughing and joking at our antics, have a cup of coffee or a cocktail (depending on which way the "wind" blows), and toast and celebrate our victory.

That's the way the great people of West Madison have always done it, and I'm sure nothing will change that.

Meanwhile, I'll continue to call out like I "call" in the chips fall where they may. Thanks to your great newspaper for its space and all your fine, intelligent readers for their time.

Baptist group holds meeting

Maxine Green covers the Granite City and Nameoki Township for the *Press-Record/Journal*. Call her at 931-6256.

The Madison County Baptist Association "Saints Alive" members held their quarterly meeting recently at Temple Baptist Church on McCambridge Avenue in Madison. President Vern Ridgeway called the meeting to order. New officers elected were: Bob Lewis, president; Myra Grote, vice president; Vera Kirkpatrick, secretary; Louise Aszkenas, pianist; Vera Ridgeway, music director; and Dr. Elyn Wilkinson, Saints Alive coordinator. Helen Galloway spoke on the topic: "Senior Adults—How to Make Our Life is a Ministry." Chicken and dumplings were prepared by Grote, Kirkpatrick and Virginia Harnettaux and a birthday cake was served by Vern Ridgeway. Kirkpatrick, Rev. Jeff Davis offered the blessing. Also attending were: Virgil and Olive Stogdall, Emily Daily, Jim Ridgeway, Gertrude and William Terrell, Lena Hurley, Pearl Potenz, Mary Hoover, Erna Harriett, Marion Clay, Rachel Pinion, Norma Rains, Wilma Niemeyer, Gladys and Phyllis Knight, Lucy Stewart, Ned Fenster, Dorothy Harnettaux and D.H. Ridgeway. The next meeting is Jan. 7 at the Bear-Foot Restaurant.

Gene and Doris Ross have returned home after spending five days in Milwaukee, Wis., where they attended the Shrine's Supreme Council meeting.

The First Assembly of God Church, 24th Street and Madison Avenue, will be sponsoring a Fall Craft Fair on Saturday, Oct. 20, from 9 a.m. to 3 p.m. Ham and beans will also be served between 10:30 a.m. and 3 p.m. Tickets are \$3 and attendance prizes will be awarded.

The Granite City Area Council PTA Scholarship Craft Show will be held at the Township Hall, 20th and State streets, on Saturday, Oct. 20. Proceeds will go into the Granite City Scholarship Fund. Contact Sandy Anderson at 2006 Garfield Ave. ***

A videotape on earthquakes will be shown on Cencom Cable TV Channel 10 at 10 a.m. on Saturday, Oct. 20, and Oct. 27 and 7 p.m. on Tuesday, Oct. 23.

Chris Weathers was honored with a "Anchors Away" party on Sept. 19. Weathers left for the Navy on Oct. 1 and is now in recruit training at the Great Lakes Naval Training Center at Great Lakes, Ill. Several friends and relatives attended the party. Among the out-of-towners were his grandmother, Jane Weathers of Avon; Mr. and Mrs. Thorp of Freeberg; Len Midgett of Arnold, Mo., an uncle; Henry Durr, an uncle, and family; Shirley and Jim Riedel; Dwayne and Paul, all of Okawville; Richard and Evadene Ederis; his grandmother, Mary Foster, and a friend from New Athens; his brothers, Bill, Rob and Dan Weathers; and his parents, Mr. and Mrs. Bill Weathers, all of Granite City; and Chris's recruiter, Joe Mantern and Terry and son.

We weren't really alike, but we had many things in common. We were young, energetic, of German ancestry and attended Evangelical & Reformed churches (St. Peter and St. John).

We were willing to exchange 100 percent effort for broad experience in news reporting.

FOR A NUMBER of years, starting in 1945, the two of us formed the entire news staff of the *Granite City Press-Record* and employees of C.E. "Corky" Townsend, who had begun buying the newspaper in 1944 and completed the purchase in 1947.

The man I refer to is Jule D. Barnes, who died Oct. 8 at the age of 70.

The attraction of working here was our love for this region and for journalism. We each covered thousands of news events in Venango, Mercer, Crawford, Venango, Nameoki/Cheutaukau townships and the Metro East region.

NUMBER TWO on the list of the 'Top 10 Worst Intersections' is this 'Four-way' intersection of Maryville Road (running left to right) with Emmert Avenue (at right) and Stratford Lane (hidden by hedge at center). The worst intersection, as voted on by the readers of the *Press-Record*,

Journal, was the three-way-stop at 20th and State streets. The problem has been eased (since our poll was taken) by the elimination of the stop sign on 20th, making it a stopping situation for State Street traffic only with signs indicating 'cross-traffic does not stop.'

CRASH!

Our readers pick 'Top 10' to avoid

Following are some of the comments made by readers who responded to our poll "Where are our worst intersections?"

A related story appears on Page 1 of this issue, giving results of the poll and comments by city officials on the poll and its findings.

20th and State streets:

Larry Wood — High number of accidents at this intersection are dangerous for pedestrians.

Norma Jones — I work in the bank building... weekly I hear the crash of metal and glass... people getting hurt and potentially losing their lives in this intersection.

Charles E. King — People from out-of-town don't realize it's a three-way stop and pull out into traffic.

Doris Wiggin — Three-way stop is dangerous coming out.

James Warren — Fourth driver (who does not have to stop) is invariably hit by drivers who don't realize that he doesn't have to stop. This is a constant hazard to Granite City. Several drivers who work in the General Office building (as cars often end up out of control or on the sidewalk).

Arleen Howlett — There are several accidents a month.

Emert, Stratford and Maryville roads:

Larry Mangi — Irregular four-way crossing with large shrubbery blocking view of drivers. Poor lighting. Four-way stop, signs little help.

John Bagi — Because of hedge blocking the view and the rest keep coming from Erin and Maryville. Lot of them do not make the stop signs.

Dorothy Cey — People come off of Emert and Stratford two and three at a time and do not stop. I almost got hit there three times.

Unnamed — No one is sure whose turn it is to go and people don't wait their turn.

Bartender — I wonder if people understand that once you have stopped and you make a turn you don't stop in the middle.

Robert Dawes — Can anybody figure it out?

Linda McGee — I have sat at one of the

stop signs and four or more cars will just go right around from Emert or Stratford.

Madison Ave. at Nameoki Road

Sandra Williams — Too many people going into and out of National, Iowa is a big street, by National. That street could be made two ways up to a certain point.

Ronald Danner — People exiting High Street (Quik Trip and Auto Zone) onto Madison Avenue, have right-of-way over traffic left.

Unnamed — Many people run through on red. Who has right of way on green coming out of Auto Zone and QuikTrip?

Wabash and Pontoon Roads:

Gregg McGee — Several drivers go through these stop signs, I believe a stop and go signal should be there.

Eleanor Sillers — I've seen too many accidents and near accidents as people guess whose "turn" it is.

Unnamed — This is a hazardous intersection, an electric traffic signal is needed.

American Village, Crossroads Plaza and Nameoki Center — Need stop signs. Motorists do not know who has right of way and very dangerous driving.

Adela Zahn — Need more stop signs at shopping centers to know who has the right of way. Stop signs and yield signs.

Faye Hester — Almost worse than any street is the parking lot serving the area from Baskin-Robbins to the old Schnucks store. Irregular traffic patterns with little regulations. Something bad is going to happen somewhere in that area.

Nameoki, St. Clair and Iowa

Lisa Wellarn — This relatively new stop sign is nearly useless without adding a turn arrow for left hand turns from Nameoki (both from turning into National's lot) onto St. Clair, across traffic.

Carol Nelson — Need left turn signals, view blocked from right lane on Nameoki Road when cars meet in opposite directions

and both want to turn left; some congestion at Blockbuster entrance.

Betty Rotes — No left turn signal, lots of traffic.

Nameoki, Johnson and Fehling

Bob Stark — Flow of traffic 20th Street and Madison Avenue.

Edna Rowlett — Need arrow for left turn from 20th Street onto Madison Ave.

James Harris — Traffic lines are heavy before lights, turn making left turns difficult.

Unnamed — Due to trucks in and out of parking lot traffic. Need a left turn signal, due to slow moving trucks. No time to enter Madison Ave.

Fox — Because of trucks and cars coming north, you can't make your turn maybe for two or three times (Why is there a left turn arrow for the other three turns?)

Adie 25 and Arlington Drive at the bridge

Maier — There should be a stoplight. Many people have been killed and injured. Drivers fly and don't see people stopped to turn in.

John Kastelle — Large numbers of golfers in and out of Arlington Heights, plus residential traffic.

Bill and Nameoki

Gregg McGee — Hazardous when electric signals are switched to flashing on Sunday morning during church traffic.

Robert and Pamela Vasquez — On July 4, 1987, we were out looking for fireworks. The green light to cross only lasted maybe 10 seconds so my wife and daughter got stuck in the middle of the intersection. My daughter got hit by a truck. Luckily she didn't get hurt. I have read about several other accidents at this crossing where people have been killed and injured.

And last, but not least:

Henry Poy — Every intersection in this Hoosier town is the worst. They were designed by a dipsick.

Communion celebrated

Kathy Dohnal covers the Madison-Venice scene for the *Press-Record/Journal*. She can be contacted at 877-1058. ***

Deanne Lynette Stern made her first Holy Communion on Sunday, Sept. 30, at St. Mary's Church, performed by the deacons of Dutch Stern and Sheila Barnett. Her grandparents are Joseph and Rosalie Stern and Joan Wilkins of Madison. Others present were Michael Stern, Sue and son Zack and Adam, St. Louis; Ronald Stern, David and Lisa Stern of Granite City; Andrew Robert Stern and daughter, Debbie, of Madison; and Susan Willman. Deanne was honored at a dessert luncheon at Baskin-Robbins ice cream shop in Granite City. She is a third-grade pupil at St. Elizabeth School. ***

A wedding shower was held on Sept. 30 at the Madison Recreation Center to honor the recent marriage of Barry Bonner and Eric Gunderson. The couple was married in Edwardsville on Sept. 14. Parents of the couple are Merle and Vicki Bonner and Lori and Eric Gunderson. The shower was served to 85 guests and attendance prizes awarded. The event was hosted by Gerry Mendez, Patty Knobloch and Elaine Grayson. Assisting in opening her gifts was Tom Mendez.

The Quilting Club met on Oct. 10 at the home of Catherine O'Dell for a workday and meeting of quilting. The next day the club had dinner at Ravanel's Restaurant to celebrate the birthday of Catherine. After dinner they returned to the honoree's home for dessert and games. Also attending were Mary Venorsky, Catherine Measke, Vera Sikora and Marie Szycmek. ***

Plans are being made for the annual Halloween Dance to benefit the PRCU Dancing Troupe.

On Oct. 20, we will have fireworks. The event will be held at Polish Hall, 228 Greenwood St., Madison, on Saturday, Oct. 27.

Music will be provided by Terry Dukko's "Kings" and the band from 8 p.m. to midnight. Donation is \$4 per person. Participation in a costume contest is optional. Director of the group is Regine Forrys and dance instructor is Suzy Holmes.

The Madison Senior Citizens celebrated their 20th anniversary on Oct. 12. About 120 guests and members attending the affair. Guests included Mayor and Mrs. John Bellcoff; Mr. and Mrs. Michael Vrabec, aldermen. The club was created 20 years ago by Clara G. Green, wife of Freda. The hall was decorated with red balloons and banners made by Krakowicki and Jim Miller.

Miller's 20th anniversary was celebrated by Rodriguez and dancing was enjoyed by the music of the Tune Twisters. Sue Blatner, vice president, provided entertainment in the absence of the president. Mildred Shifter and Dorothy Ashley were chairmen of the party.

Hardly a birth, birthday, engagement, wedding, anniversary, vacation or visit occurred without it being reported.

If your group held a meeting, you could count it as being in the news. Come on, so complete that even your speeding, arrest or stop-sign violation was recorded for posterity.

RULES HAVE CHANGED somewhat with the passing of years, but people still want to read about local happenings in as great detail as possible to present.

Localization has simplified much of the work but considerable tasks remain. The hours still are long, still enjoyable.

Jule's health had permitted, I'm sure he would have remained actively involved for even a longer period.

But his participation from the mid-1930s until 1961 did constitute a substantial career, one that will long be remembered for his accuracy, thoroughness, fairness, compassion and community service.

County pay hikes OK'd; Briggs gets \$20,000 increase

By John Milazzo
Staff writer

EDWARDSVILLE — The Madison County Board on Wednesday approved salary increases for its own members and county employees who will be elected in November, including a whopping 44 percent increase for Regional Superintendent of Schools Harry Briggs.

Under state law, county commissioners set a salary level prior to the new terms of office for elected officials.

Officials elected in the Nov. 6 general election will take office Dec. 1, except for Briggs, whose present term of office is over at the end of July.

Briggs is a Democrat running unopposed for a second four-year term that began in January 1990.

He currently earns \$44,500 annually and will receive a \$15,000 increase approved earlier this year by the Illinois Legislature.

The Legislature sets the salary levels for regional school superintendents throughout the state and appropriates money to pay them. Briggs' raise follows the next meeting.

In addition to the \$15,000 increase already approved by the Legislature, the county Board of Education voted to approve a \$5,000 "stipend" to be paid annually to Briggs. Similar supplemental pay has been approved over the past six years.

Under the pay package, Briggs' salary will increase next year to \$60,500 from \$44,500. The board also approved increasing board members' annual salaries next year to \$5,000 from the \$3,000.

Also approved were raises for County Clerk Evelyn Bowles and Sheriff Bob Churchich, who are running unopposed for reelection to \$30,000 annually from \$4,500 over the next four years. Incumbent Treasurer Michael "Mick" Henhaus will receive the same raise schedule if reelected.

The board also approved a supplemental \$200 per month payment to Churchich for his duties as county supervisor of safety.

—Luke 12:31 "Seek ye first the kingdom of God and all these other things shall be added unto you."

Many people today are worried about the economy. They are concerned about what will happen to them, what will happen tomorrow. It is true there are many things that we can't control. But we can control the world around us in turmoil. It seems everyday the news gets worse. We worry about the economy and...

Yet, if you a child of God, born again, you have this spirit you need not worry. The Bible teaches us that if we put off spiritual works, first and foremost, concerning about pleasing God in all things. He will take care of the rest.

We can rest in Jesus, knowing that He will keep his Word. So if you are worried, let it be whether or not you are living a life that is pleasing to God. If we are living a life that is pleasing to God, we can leave everything else to Him, for He knows what we have need of.

Start trusting Him.

In 1963... America Conquers Space Dempsey-Adams Auto Body Founded

In 1963 - eight years after formation of the Dempsey and Adams Companies the Auto Body Company was formed

Don & Jack purchased some equipment from an auto body repair shop that was going out of business and flipped a coin to see who would manage Dempsey Adams Auto Body Shop. The pair maintains there were never any winners or losers in their infrequent business decision coin flips but, in this case Jack became the manager of the Body Shop while Don Adams focused his attention on the Glass and Fence Companies.

At the time Dempsey Adams Auto Body was formed in 1963

- ★ President John F. Kennedy was assassinated and Lyndon B. Johnson became president.
- ★ Alan Shepard was the first American to fly in space.
- ★ Recitation of the Lord's Prayer in public schools was ruled unconstitutional.
- ★ Peter, Paul and Mary's "Blowing in the Wind" and Henry Mancini's "Days of Wine and Roses", won Grammy Awards.

In Granite City in 1963

A budget of \$52,900 was approved by the library — today with two facilities, the book mobile and expanded services — the library budget exceeds \$600,000 annually.

Citizens were urged to get free chest x-rays at the City Hall or at Bellemore Village.

Large marble layer cakes cost 84¢ at Mrs. Seibold's.

Today 33 years after the formation of the Dempsey and Adams Companies and 27 years after the birth of Dempsey Adams Auto Body

the firm utilizes state of the art, high tech equipment which includes sophisticated gauges utilized in alignment work, MIG welding machines and a specially designed paint room. They offer a limited warranty on their work.

We sincerely hope that we've contributed to the growth and betterment of the community, to you and your family. We hope that we may continue to serve you in the years ahead and that you, the community and Dempsey Adams Auto Body may continue to grow together.

Stephens keys win over Alton

By Pete Hayes
Staff writer

GRANITE CITY — Alton High soccer coach Joe Gentelin felt good at halftime of Tuesday's game at The Gauntlet.

His Redbirds were tied 1-1 with the Warriors, the top-ranked team in the week's *Journal* coaches poll. But check back with Gentelin after the Warriors had scored two second-half goals for a 3-1 win and there was no ranting, raving or keen disappointment.

"We obviously wanted to win," said Gentelin. "But to come in here and play as well as we did early — that's not too bad."

Jeff Stephens was the Warriors' main offensive threat. He scored in the first half and added the clincher. Stephens also assisted on an Alton's winning goal in the third quarter. Granite City finished the conference season with a perfect 8-0 record and is 16-3 in overall heading into tonight's regular-season finale at home against SLUH (JV game at 5:30).

Alton is 9-9-1 and is finished with regular-season play. Tim Stabenow got the Redbirds a 1-0 lead by blasting a shot off a direct kick from 20 yards out.

"It was a really nice shot," said Warrior coach Gene Baker. "You've got to give him credit. We have to make sure we're on marking the kicker on the restart, but it was a genuine goal."

The Warriors didn't trail long. Stephens scored just two minutes later.

"Playing with a lead is one thing we still haven't improved on," said Gentelin.

Terrill will the Warriors ahead on Stephens' assist late in the game.

HEADING FOR STATE: The Warrior doubles team of seniors Hollie Taylor (left) and Addie Lenzi will be competing in the IHSA state tennis tournament beginning today in Mt. Prospect. Taylor and Lenzi are also teammates in basketball and soccer at the high school. Lenzi was an all-state soccer player last spring. Preliminary results from the tournament will appear in Sunday's edition.

Supporting runners key for harriers

By Brian Henry
Correspondent

GRANITE CITY — Lance Reynolds, Justin Stabenow and Brian Seitz have been the big names, but it will be the performance of the other runners that will determine how far the Warriors' cross country team advances in the post-season.

Entering Saturday's regional at SIUE, it will be Brian Seitz, Mark Chapman and Chris Garriot playing big roles. The physical condition of the team (foot and hand injuries) is an important factor, while Seitz will be counted on to stabilize the Warriors.

"We won't know about Chapman and Garriot until Saturday," said coach Dave McClain. "It's going to come down to our 4-6 runners, so those two and Seitz especially are going to have to run a solid race."

Co-captains Reynolds and Stabenow have anchored the Warriors thus far and should continue to do so. Reed, just a sophomore, has run very well in his last three races.

As for the top five teams, the top five individuals from non-qualifying teams will advance. Among those expected to go to sectionals are Civic Memorial's Walt Gregory, Alton's Ramon Lacey, Triad's Rob Valdespino and East St. Louis' Justin Baker.

"A big factor in deciding who advances will be the course itself. It's one of the toughest in

the area because of a number of hills. There was even a move by some coaches to make it more regional but that got nowhere. Conditioning and familiarity with the course are two intangibles on the course," said McClain.

A return to the sectionals has been a motivating factor for Granite City as it wants to make amends for a poor showing there two years ago. McClain said the reason for the showing in 1990 was that the team was tired after going up a night early. The team will have a vote on that this year if it advances out of the regional.

"When we get there, we want to make up for last year because we didn't run well at all. Sectionals will be tough and if we're to advance to state (Nov. 1 in Peoria), it will take some kind of race."

The regional field includes Granite City, Alton, Belleville East, Belleville West, Civic Memorial, Cahokia, Collinsville, Lincoln, East St. Louis, Edwardsville, Highland, Mascoutah, O'Fallon, Triad and Wood River.

For the Redbirds, it's been a struggle all the way against a rugged schedule featuring three rugged sectionals champions. Alton has allowed 146 points in the last three games — all losses to

Gridders can clinch winning season

ALTON — From a scintillating 4-0 start, the Warriors football team has kept the skids against three very good teams in the last three weeks. But much can be salvaged tomorrow.

Gridder City travels to Alton for an 8 p.m. Southwestern Conference game against the Redbirds (1-2 in conference play, 2-5 overall). The Warriors would

appear to have a much better shot this week than next week at Belleville East. With a win at Belleville South, Granite City (0-4) could clinch a winning record both in the conference and overall.

For the Redbirds, it's been a struggle all the way against a rugged schedule featuring three rugged sectionals champions. Alton has allowed 146 points in the last three games — all losses to

Trojans facing fellow strugglers at ND

By Mike Kelly

QUINCY — How much longer can this keep up? The Trojans have to eventually beat someone.

They may get their chance tomorrow against Quincy Notre Dame. The Raiders (1-6), like Madison, are going to be a struggle. But the Trojans (0-6) have faced this scenario before. Remember what happened three weeks ago against Breece Central?

"This will be a similar game to the Breece match-up," said Tom Smith, coach Don Smith's son.

"We'll be right back," he said. "Hopefully we'll be strong for this game. Missing Cernyn (Thomas) in the Breece game was a vital skill position. We won't need that big of an advantage going into this game, but if we're at full strength and play with the same intensity we showed against

Dupo and Freeburg, it could result in a victory."

But discipline problems continue to haunt the Trojans. Coming back from a 10-0 loss to Dupo, both received in-house suspensions on Monday.

Both players should be eligible to play tomorrow, because their suspensions are scheduled to end today.

"It's just another page of what type of season we've had around here," Smith said. "Hopefully, those guys will keep their noses clean for the remainder of the year. We'll need them for Friday's game."

"Notre Dame hasn't had much to cheer about either. The Raiders will enter the contest with a 4-6 record, 1-6 in the conference.

"They're a very young team with only four seniors starting," Smith said. "But it's definitely been a rebuilding year for them," coach Jim Masters said. "But taking a look at last week's game, our kids

haven't played that badly. Our strong point is defense. It's kept us in a lot of our games, but inexperience on offense has led to a lot of mistakes."

The Raiders are led by senior Roy Hinkamp, a two-way player averaging 13 tackles a game from his middle linebacker position and leading the team with 580 yards rushing. Sophomore quarterback Matt Lavery has shown steady progress during his first year of varsity football.

"Roy has been a workhorse for us, and Matt has done a nice job of running the ball and passing," said. "But we like to run a balanced attack. We'll need that against Madison's speed."

"We finally broke our scoring drought (11 games) last week against Freeburg," Smith said. "A lot of our younger kids played pretty well. And they've carried that spirit with them to practice this week. It could be the boost we need to win this game."

GRANITE CITY PRESS-RECORD

Super-sectional to be held here

By Dave Whaley
Executive sports editor

GRANITE CITY — The final step to the state soccer tournament will be taken here on Oct. 30.

Granite City High School athletic director Frank Pitot said Tuesday that the Granite City Super-Sectional will be played at The Gauntlet — or possibly at Memorial Stadium — that evening at 6 p.m.

For the past several years the final game(s) was played at SIUE's Bob Guelker Field. But the GCHS administration was unable to work out a suitable deal with SIUE for use of the field this year.

"We haven't heard anything to let us believe we can work something out," Pitot said. "At this late date we had to have a firm decision on where to play."

Should the Warriors be playing at The Gauntlet, the odds would favor that the game will be played on The Gauntlet. Pitot said there is a possibility the game would be played at Memorial Stadium (which is adjacent to The Gauntlet) if the Warriors aren't playing.

"We can probably seat around 1,500 people at Memorial and close to 3,000 in the stadium," Pitot said. "That's comparable to the crowd we've had at SIUE."

There is also a slight possibility of more available seating at The Gauntlet by Oct. 30. Two new sets of metal grandstands were in place for the Tournament of Champions, and Pitot is hoping two more which have been ordered could arrive in the next two weeks.

"That would increase the seating by about 500," said Pitot.

In recent years, Granite City and Collinsville have alternated as hosts of the super-sectional. As hosts, each school has the right to play the games wherever it wants to play them. But Guelker Field has added more of a big-game atmosphere.

"We like to play at SIUE," Pitot said. "But we need a place for the IHSA to have been in constant contact (with SIUE) and just haven't been able to work out a deal."

"This will obviously be easier for us to host, but it will just be more convenient."

Of course, should the Warriors win their regional and sectional, they will host an IHSA super-sectional. Pitot expects to hear at least some negative feedback from the opposition.

"I talked with (Collinsville athletic director) Frank (Pitot) and he knows the situation," Pitot said of the Warriors' most likely opponent. "They had to work out the arrangements with SIUE last year, and I think it shows this isn't anything contrived."

"I don't like it, but we may have to do it," Pitot said of playing the game at The Gauntlet. "We may go on the main football field, and we'd rather do that."

Pitot said he understood the problems with SIUE and understands Granite City's decision. He said it was likely next year's super-sectional would be played in Collinsville.

"I would do the same thing with a nice field like that," Pitot said.

Opens today Circuit City plugs into area

By Roger McGrath
Correspondent

Circuit City Stores Inc., the nation's largest specialty retailer of consumer electronics, will three down the peninsula to open its first store today (Oct. 18) when it opens six St. Louis area stores.

Circuit City officials would not predict how well the retailer will do in St. Louis, but they did say that Circuit City captures an average of 25 percent of each market it enters.

"It's time for us to make the jump to the Midwest," said Pete Douglas, St. Louis-based general manager of the Richmond, Va.-based company. "We want to be in a high-traffic location, near a major artery with a major attraction."

Therefore, the Circuit City

stores are located near some of the area's top shopping centers.

For example, the Fairview Heights store is across the street from St. Clair Square, the St. Peters outlet is near Mid Rivers Mall and the Crestwood store is near Crestwood Plaza.

The other stores are in strip shopping centers in heavily populated areas of Ferguson, Bridgeton and Ellisville.

Circuit City has hired more than 400 St. Louis-area residents to staff its stores.

Sales personnel, who are paid commissions, are trained to sell in a specific department, Douglas said. There is a reason sales people are specialists: The video department, for example, stocks more than 400 different television and video cassette record-

ers that salesmen must know about.

The stores feature a "raceway" layout. A red tile pathway circles the store, with various sales departments such as appliances and video equipment on the outside.

The center of the store is what Douglas calls the "ace" display, a collection of personal electronics, from Walkman-style items to personal computers.

"We think it's very friendly to the customer," Douglas said.

And there is evidence to prove that. Sales of the H2-store chain, which was founded in 1949, have been growing at a 20 percent annual pace since 1986. Sales totaled \$2.1 billion in fiscal 1990.

MEDDLING IN MAGIC makes Mickey Mouse miserable in "Fantasia."

Disney's fantastic 'Fantasia' celebrates 50th anniversary

Two weeks before Walt Disney's "Fantasia" opened Nov. 13, 1940, at the Broadway Theater in New York City, the late film director and entertainment columnist told a reporter for *Time* magazine, "I expect it'll run for years — perhaps even after I'm gone."

Disney's prediction was not immediately embraced by the public or the press. But Disney, who died in 1966, was right.

Fifty years ago, moviegoers were fresh from the financial pain of the Great Depression and prepared with the start of World War II. They placed little importance on an animated film featuring Mickey Mouse filled with classical music.

After "Fantasia" opened, the critics were split in their reactions. Dance and movie writers were glowing in their praise of the \$2.8 million project, a major breakthrough in the art of animation.

Powerful film critic Bosley Crowther of the *New York Times* reported, "Motion picture history was made last night. However, that was not musical critic Virgil Thomson, said, 'Beethoven's "Pastoral Symphony" will no doubt survive its Walt Disney accompaniment, some day, in the annals of centauri that include the mating of these with young, attractive 'caenaelettes' in flowered bras-sieres.'

Today, "Fantasia" is considered by film historians as Disney's greatest motion picture and the definitive work in American film animation. Reopening with a new score, new commentaries and a new, digitally remastered soundtrack, "Fantasia" is set to present its unequalled magic to a whole new generation of viewers.

Harry Hamm

ney's greatest motion picture and the definitive work in American film animation. Reopening with a new score, new commentaries and a new, digitally remastered soundtrack, "Fantasia" is set to present its unequalled magic to a whole new generation of viewers.

"It was, I think, Walt's greatest and most important dream," said Joe Grant, who in 1937 was the project's story director. "He drove us all crazy during the making of 'Fantasia,' but he always went along with it. Walt never spent much time sleeping and he kept waking us up in the middle of the night with a change or revision. It was always a little different, but Walt had a talent for knowing how to find the most important, obscure detail in a scene that made all the difference."

John Culhane, author of the book "Walt Disney's Fantasia," said the touches Disney contributed consisted of things like pupils for Mickey Mouse's eyes to allow the character more expression, and the hiring of a budding teen-age dancing star

named Marge Champion to act as a live model for the animators who were drawing the "Dance of the Hours" segment that included dancing hippos.

Wehrenberg Theaters and American Multi-Cinema took special steps to show "Fantasia" on its 50th anniversary.

AMC, which has one print of the film and is showing it at the Esquire theater, brought in a projection technician from the exhibitor's home office in Kansas City, Mo., prior to the film's opening. AMC will show new legends for the projection equipment that will show the film.

Wehrenberg is using sound-enhancing systems. "Fantasia" will be shown in THX sound at Wehrenberg's Kenrick and Cinema 10. The Cinema 10 will have Ultra-Sound at the St. Clair 10 Cine in Fairview Heights.

Rated G. Running time: 119 minutes.

Magic House offers Saturday workshops

The Magic House is conducting "Saturday Science Workshops" for kids age 8 through 11.

Participants explore a variety of science concepts through hands-on activities. Workshops will be held from 10 a.m. to 12:30 p.m. and last about 45 minutes. Registration is taken at the museum the morning of each workshop. Places are limited. The cost will be included in the regular admission of \$2.50.

"Air Power" is the theme of the program offered each Saturday in October. Participants explore the way air is used as a source of energy.

"Dinosaurs" will be the topic explored Nov. 3, 10 and 17. Children will be able to discover

properties of electrical currents by working with batteries, switches, light bulbs and other apparatus.

"Kitchen Chemistry," offered Dec. 1, 8 and 15, will allow youngsters to discover chemical properties in household products through demonstrations and experiments.

"Saturday Science Workshops" also are available to school groups by prior registration. The scout program is offered from 10 to 10:45 a.m. Saturday. There is no fee for the program. Those who wish to register should call the Magic House at (314) 822-8900. The Magic House is at 516 S. Kirkwood Road.

Autumn sky show now at planetarium

"Autumn Nights," a planetarium presentation on constellations and planets, is shown at the McDonnell Star Theater at the St. Louis Science Center in Forest Park, through Dec. 16.

Show times are 4 p.m. Sunday, 8 p.m. Friday and 4 and 8 p.m. Saturday. Admission is \$2.50. Children under five are not admitted.

The 35-minute show focuses on special autumn sky sights, including Saturn, Mars and meteor showers. It will also explain how the very visible constellations of Andromeda, Cassiopeia and Perseus played a role in the dramatic legends created by early people.

Call 444-4444 for more information about Science Center activities and programs.

American Thresherman to show off machines

PINEKNYVILLE — The site of Fort Massac probably echoed to shots fired in anger only once in its 17-year history, but it will reverberate with the boom of cannons and the crack of muskets often during the upcoming 17th annual Fort Massac Encampment Oct. 20-21.

The entertainment and educational encampment program at the 1,450-acre Fort Massac State Park, near Metropolis in Massac County, will continue from 10 a.m. to 5 p.m. both days.

At this historic re-creation, visitors will have an excellent opportunity to see what life was like on the hostile frontier in pioneer days when Fort Massac was an important military and trading post of the Illinois Country.

All visitor parking for the encampment will be at the fairgrounds north of Fort Massac across from the entrance. A shuttle bus service will link the parking area and the park.

Visitors will be able to see steam engines, gas engines, gas tractors, draft horses and ponies in action all day.

Steam train rides will be offered by the American and Southern Illinois Railroad. A large flea market and arts and crafts booths will be featured.

Visitors will be able to see displays showing the making of hominy, cider, apple butter, molasses, biscuits, rope, shinglemilling, picket fencing, woven wire fence.

Demonstrations will include sawing firewood, crosscut sawing, blacksmithing, corn shelling and grinding, barn milling and other farm-related chores that happen in the fall of the year.

At 1 p.m. Sunday Oct. 21, will be an antique consignment sale. Consignment items will consist of household items, machinery, hand tools, engines and tractors.

Eckert's to host Halloween party

BELLEVILLE — Eckert Farms will host an outdoor Halloween Party on Oct. 27-28 featuring country music from 1 to 4 p.m., a stock car pony rides, straw bale petting farm and parade of cartoon characters.

Activities on both days will be from 9 a.m. to 5 p.m. There will be no admission and ample free parking.

Eckert's is on Illinois 15, near Belleville.
